

NATURE TIC-TAC-TOE

On your next nature walk collect 8 pebbles and 4 small twigs. Try and find 4 dark pebbles and 4 light pebbles. If you can't find these, paint 4 of the pebbles when you get home so you have 2 sets of pebbles that are different.

How to play: Lay the twigs down on the picture across each other. Take it in turns placing 1 pebble at a time in any square, the first person to get 3 in a row in any direction wins. Clean the board and start again. Have fun Gumboot Kids!
