

LILY PAD HOP

Hop Hop Hop! Lay the lily pads out on a flat area. Choose how much space you want between them. Take turns hopping from one pad to the next without touching any other area on the ground. Then switch things up by changing the shape of the course or by changing the way you hop.

Lily Pad Options:

- Print and cut out as many lily pads as you would like to use in your game.
- Print one lily pad and trace around it with chalk for a long hopping course. Colour them any colour you like! Let your imagination run wild!
- Make your own lily pads by placing leaves together in a lily pad shape.
